

The abatement threshold for Veteran's Pension is increasing

From 1 April 2021, abatement thresholds will increase. You may be able to earn more without affecting your pension if:

- you have included your non-qualifying partner in your Veteran's Pension, or
- you're a recipient of Veteran's Pension (under 65)

You don't need to do anything differently

Any changes to your pension from 1 April will be calculated automatically.

For details on the thresholds that apply to you, visit the [Work and Income website](#).

Work and Income (<https://www.workandincome.govt.nz/about-work-and-income/news/2021/income-abatement-changes.html>)

For more general information about this change, visit the [New Zealand Government website](#).

The official website of the New Zealand Government (<https://www.beehive.govt.nz/release/government-delivers-promise-working-low-income-families>)

Date

17 February 2021
