
Social Rehabilitation

Social Rehabilitation is about enabling you to live your best life possible.

Social Rehabilitation consists of many services. We'll do an assessment to figure out what will best meet your needs.

We'll also look at what needs your spouse or partner, child, dependent, or other support person might have in relation to the support they give you.

Depending on your situation we may require you to participate in Social Rehabilitation. You can also apply even when we don't require you to.

Depending on your circumstances you may be able to get:
